ELMDENE TO RAISE ALARM NOTIFICATION VOLUME WITH NEW INTERNAL SOUNDER AT IFSEC 2012

Innovative electronic security and fire products manufacturer, Elmdene International Limited - a subsidiary of Potter Signal, LLC - is set to launch its new 115db(A) INT1-T internal sounder at IFSEC 2012.

Targeted primarily at the UK market, the advanced sounder features an attractive low-profile design, and white ABS cover and backplate. In operation the INT1-T sounder is able to offer an audible notification of alarm conditions generated by intruder, hold-up or any other alarm system through a warble or steady tone. In terms of intensity, the sound output of the unit has been rated at 115db(A) at a distance of one metre.

Suitable for operation with systems that are designed to meet the pivotal PD6662-2010 standard, the INT1-T sounder, which will be demonstrated on Elmdene's stand at IFSEC 2012, incorporates a two-way tamper alert. This tamper detection feature is activated when an unauthorised attempt is made to remove the sounder's cover or to take the unit from where it has been mounted.

The Grade 3, environmental class II, unit comes with a two-year warranty and complies with the requirements of EN50131-1:2006 and EN50131-4:2009.

Said Justin Roberts, Sales and Marketing Director at Elmdene International Limited: "The INT1-T underlines our commitment to further extend the capabilities of our internal sounder models. There is little doubt that this state-of-the-art unit is going to be an extremely effective and unobtrusive sounder solution for a wide range of applications, whether it be in combination with a panic button or intruder alarm system. The fact that INT1-T satisfies the very latest industry standards including, PD6662-2010, is certainly a consideration that is likely to drive its take-up in the market."

For more information on the INT1-T, please visit Elmdene on Stand 4/H135 during IFSEC 2012 or Tel: +44(0)23 9269 6638, email: sales@elmdene.co.uk or log on to www.elmdene.co.uk. Elmdene also has a YouTube Channel which can be found at www.youtube.com/user/ElmdeneInternational and a Twitter account: [ElmdeneIntltd](https://twitter.com/ElmdeneIntltd).

About Elmdene International Limited

Founded over 40 years ago, Elmdene International Limited - a subsidiary of Potter Electric Signal, LLC - is head-quartered in Portsmouth, England, with a turnover of £10 million and has 100 employees. The fast growing company manufactures electronic products for the security, access control, CCTV and fire industries around the world. Key product lines for Elmdene include: its new innovative Merlin MGD-S Graffiti Detector which applies acoustic technology to detect aerosol-propelled spray paints, energy efficient Switch Mode power supplies which are up to 87 per cent efficient (compared to around 50 per cent for linear alternatives), a wide range of external and internal sounders, panic buttons, magnetic contacts, safe limpets, junction boxes and ancillaries.

Elmdene places a strong emphasis on quality, is accredited to BS EN9001:2000, and manufactures products to technical standards recognised around the world such as: VdS in Germany for EN54-4 power supply equipment for the fire industry, NFa2p in France, NCP in the Netherlands and INCERT in Belgium for magnetic contacts, external sounders, power supplies and inertia detectors.
