

APPROVED PSUs

Entire security and fire systems with all the advanced features that come with them rely on the power supply! Selecting a high-quality PSU built for reliability and longevity is the obvious choice.

Both EN and UL standards are highly credible. Compliance with these standards ensure products operate reliably and illustrate a manufacturer's dedication to safety and quality. Offering peace of mind when installing critical systems.

Boxed Power Supplies

Certified Fire, Access Control and Intruder PSUs are available within a choice of engineered enclosures to suit the application.

Unboxed Power Supplies

Compliant power modules to work within EN54 Fire systems and Certified UL294 power modules for Access Control systems.

APPROVALS:

EN54-4 certified power supplies for Fire alarm systems
EN12101-10 certified for "Smoke and Heat control systems"
UL294 certified units for Access Control systems
CE and UKCA mark
