12V dc 8A CCTV

VRS128000-x-T

2, 4, 8 or 16 Fused Outputs

SMPSU Range Where 'x' is the number of fused outputs (model dependent)

- Low profile enclosure
- Universal mains input voltage 90-264V ac
- High efficiency electronics for reduced running costs and lower operating temperatures
- Continuous full rated current to load
- Installer safe design with all high voltage electronics fully shrouded
- Modular construction for ease of maintenance & installation
- Individual channel LED health indication

- Lockable lid
- Available in 2, 4, 8, 16 channel versions (model dependent)
- Individually Fused or PTC protected outputs (model dependent)
- Cable access available via 20mm cable gland knockouts or rear panel
- Full electronic short circuit and overload protection on load output
- Mains transient protection circuit
- Green 'Mains Present' LED
- Red 'Fault' LED

FEATURES

The VRS128000-x-T range consists of high efficiency cost effective power supplies, ideal for use in CCTV applications. They feature two regulated 12V dc SMPS 4A modules, continuously supplying full rated current to load, while the universal mains input voltage enables the power supply to be used across a wide geographical area. The highly efficient switch mode design generates less heat and ensures low operating costs. The modular construction simplifies maintenance and the fused output module(s) allow multiple circuits to be individually protected, with the inclusion of PTC (self-resetting) options. Presented in white, powder coated metal enclosures with hinged lids, the VRS128000 PSU family offers a discrete and secure installation for any CCTV installation.

OPERATION

This unit is intended for use by Service Personnel only - There are NO USER SERVICEABLE parts inside. The green Mains LED will be illuminated whilst the mains supply is present. In the event of a fault condition, the red Fault LED will also be illuminated on the module.

MODELS

8A Models	Fused	PTC Rating (20°C)	Enclosure
	Outputs		
VRS128000-2-T	2 x 4A		
VRS128000-4-T	4 x 2A		310H x 245W x 60D
VRS128000-4PTC-T	4 x 2A (PTC)	I _H =2.5A / I _T =5.0A	Large Low Profile
VRS128000-8PTC-T	8 x 1A (PTC)	IH=1.1A / IT=2.2A	Hinged Lid
VRS128000-16-T	16 x 0.5A		

INSTALLATION AND SET-UP

This unit is only suitable for installation as permanently connected equipment. The PSU is NOT SUITABLE for external installation. EQUIPMENT MUST BE EARTHED. Before installation, ensure that external disconnect device is OFF. The PSU should be installed according to all relevant safety regulations applicable to the application.

Mounting

- 1. Mount securely in correct orientation using the 3 available mounting holes.
- 2. Route mains and low voltage output cables via different knockouts and/or rear cable entry holes.
- 3. Use bushes and cable glands rated to UL94 HB minimum.

Mains Power Up

- Attach correctly rated mains cable (minimum 0.75mm² [6A], 300/500V ac) and fasten using cable ties.
- Apply mains power. Check for 12V dc on load outputs. Check green Mains LED is illuminated on the modules.
- 3. Disconnect mains power.

Load Output

- 1. Attach correctly rated load cable and fasten using cable ties. Note polarity.
- 2. Re-apply mains power. Check green Mains LED is on.
- 3. Check Red Fuse Output Module LED's are illuminated.
- 4. Verify load is operating correctly.

MAINTENANCE

There is no regular maintenance required of this PSU.

If the output of the PSU fails, the cause of the failure should be investigated e.g. short circuit load. The fault should be rectified before restoring power to the PSU. The glass fuse(s) may need to be replaced ensure the correct fuse rating and type is used. In the case of the PTC fuse models these will automatically reset once the fault is removed.

DISPOSAL OF PRODUCT AT END OF LIFE

This product falls within the scope of EU Directives 2012/19/EU Waste Electrical and Electronic Equipment (WEEE). At the end of life, the product must be separated from the domestic waste stream

and disposed via an appropriate approved WEEE disposal route in accordance with all national and local regulations.

SPECIFICATION

Input Specification:

	VRS128000-x-T
Voltage (rated)	100-240V ac
Voltage (operating)	90-264V ac
Frequency	50-60Hz
Mains Input Fuse (Terminal)	T3.15 HRC
Module fuse - Mains	T3.15A HRC
Max standby Power	0.5W (no load connected)
Max Mains Input Current	3A

Output Specification:

Voltage	11.4 – 12.6V dc (12V dc nominal)
Max load current	8A (Total)
Ripple	150 mV pk-pk max
Module Output Fuse	2 x F4.0A
Overload	Electronic shutdown until overload
	or short circuit removed

Local Indicators

MAINS LED (Green) Mains present

Fault LED (Red) Module O/P Fuse blown FOM Health LED's (Red) Illuminated – Healthy

Mechanical

	T - Enclosure
Enclosure Dimensions h x w x d (mm) [external]	310 x 245 x 60
Weight	2.7Kg

Environmental

Temperature -10 to +40°C (operating) 95% RH non-condensing

-20 to +80°C (storage)

COMPLIANCE

This product meets the essential requirements of the following EU Directives:

 Low Voltage:
 2014/35/EU

 EMC:
 2014/30/EU

 RoHS3:
 2015/863

 WEEE:
 2012/19/EU

The packaging supplied with this product may be recycled.

Please dispose of packaging accordingly.

Explanation of symbols: (Not all may apply)

Fault Indication

Shock Risk - isolate before attempting access

Mains Present

Certification Level

Protective Earth

Do not dispose of in unsorted waste
