Installation & User Manual
Model: **ACCESS-EXP-PLATE**   Expander plate set installation
*With **UNIVERSAL** hole pattern for mounting Access Control Devices*

FEATURES

The ACCESS-EXP-PLATE kit allows theMULTI-ACCESS-PSU2 product to be expanded by adding further modules on hinged plates.
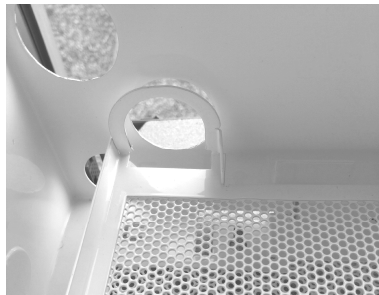

INSTALLATION

Fitting the ACCESS-EXP-PLATE kit to the *MULTI-ACCESS-PSU2 Enclosure:*

1. Fit the bottom bush into the bottom panel hole in the base.

2. Line the panel up with the corresponding hole in the top of the base.

3. Fit the top bush (supplied with panel) into the hole from the outside of the enclosure. Align panel tab with bush recess.
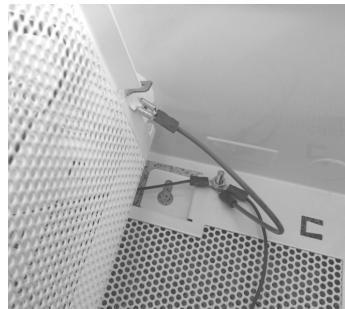

4. Fully engage panel tab over bush recess.

5. Repeat procedure for second adapter panel

6. Fit earth lead crimps from base to the tab on the top edge of the panels.

7. Secure the panels to the standoffs in the base with the thumb screws provided (top and bottom).
